EDGERTON ECHOES

The local telephone Company is erecting some new telephone line around town and the work is being very expeditiously carried out by Noble and Son.

The most diligent spot on the universe just now is Gortons Hall. Begorra, they are singin' and dancin' and club-swingin' and rehearsin' and—if you're not given a rale musical trate on Wednesday evenin' and some foine fun it will sartinly not be the fault of the Ogwanada Girls Club.

Ernie Clendenan is a tickled man these days. Mrs. Clendenan and little daughter arrived home again and all's right with the world.

Milnes Hall was the Mecca for all towners on Saturday afternoon. A large crowd filled the courtroom and listened attentively to the proceedings. The adjourned case against Jock Hodgson came first and after the evidence of the brothers Swan, from Chauvin had been, taken magistrate Milne had no hesitation in dismissing the case, also giving the complainant some good advice.

The next case was one of common assault preferred against W. H. Hallett by Otis Gerresheim. James Milne and W. J. Reynolds both presided in the case and after a lengthy trial Hallett was fined \$1.00 and costs, which he paid under protest.

Threatened Outbreak Of Tent Caterpillars

Throughout the southern prairies in Canada, forest tent caterpillars are hatching in great numbers this spring and defoliation of poplars is likely to be serious, states the Dominion Entomologist. To prevent injury to shade trees and shelter belts, immediate spraying of infested trees is recommended with the following preparation: Lead arsenate paste 2½ to 3 pounds to 40 gallons of water to which add 1½ pounds of dissolved soap.

The mixture should be applied as a fine spray at full pressure of the pump and the foliage should be thoroughly covered.

To prevent infestation from wandering caterpillars, the trees should also be banded with "tree-tanglefoot", which may be obtained from dealers in insecticides. Equal parts of resin and castor oil boiled together make a fair substitute. All infested trees in the neighbourhood of an outbreak should be banded. The bands should be four inches wide and five feet above the ground. Other substitutes for tanglefoot include bands of ordinary sticky fly paper, axle grease or tar.

Lessons From Hog Grading

A few hours at the elbow of a hog grader at one of the abattoirs or stock yards in Canada would be time well spent. One may learn much about hog grading from reading and conversation, but the lesson is much more impressive if one sees a shipment divided into separate lots according to grade, more especially if the shipment contains specimens from ones own farm.

A grader has three principal points to bear in mind—weight, length and form. Many hogs of ideal weight are assigned to the thick-smooth group because they are too short for selects. Others may have the correct length and weight, but are so rough in shoulder as to put them outside the select section. One may doubt the justice of a grading report if he has never witnessed grading in practice, but he is unlikely to do so if he sees the work done by an official grader.

It is equally instructive to go through the packing plant and to be shown collections of sides made from hogs of different market grades. The Wiltshire side is of definite form, and of weights ranging between certain limits. The characteristics of the side that brings the highest price are well understood and the first grade of Wiltshire is obtainable only from a select bacon hog. Like No. 1. hard wheat, No. 1. cheese, No. 1. creamery butter or fancy fruit, the select hog is worth the higher price. A hog raiser will profit greatly by visiting a stockyard or an abattoir and seeing for himself the actual grading of a shipment of hogs.

EDITORIAL COMMENT

The Chauvin Chronicle is now in the tenth year of its existence. The past nine years have seen many changes. We have seen our boys and girls grow up to manhood and womanhood. We have now a large number in our local schools who are really and truly natives of this district. We who came in in the early days begin to feel the approach of old age, or at least the passing of youth and young manhood. We have seen the passing to the Great Beyond of a few of the early settlers. Some have left for other locations and new arrivals have settled in our midst, but to a surprising degree for a western settlement there has been a permanence of residence.

During this period we have seen the early optimism of the settler develop into the the super effort of war-time production; and later sink, for varying reasons into a profound pessimism. At this moment we cannot delve into all the reasons for this "accursed pessimism which damns"

damns alike our efforts and our happiness. Our Edgerton poet struck a cheerful note some weeks past when he wrote "there ain't no re-constructor like the rain" and we would remark that if only providing we could and would approach our problems with a larger measure of our old time optimism—tempered by experience—that half our "grouches and "troubles" would melt away like a morning mist in the warm sunlight of a happier frame of mind.

Conferences and parleys continue over the Wheat Board question and meanwhile the market is being disorganized by reason of the uncertainty. Unless something is done, and done quickly, we shall find ourselves again without a board—or what will amount to an organization for the protection of profits to the grain trade.

The sooner we lift our marketing question out of the realms of politics and place it where it belongs—a commercial enterprise—the sooner we will find its solution.

The National Railroads have taken one step by reducing coal rates to Ontario. It's now up to the coal operators and miners to take a similar step and try and reduce their costs. Will they?

Arrange more picnics and get more rain.

THE ARROW AND THE SONG

I shot an arrow into the air,
It fell to earth, I knew not where;
For, so swiftly it flew, the sight
Could not follow it in its flight.

I breathed a song into the air,
It fell to earth, I knew not where;
For who has sight so keen and strong,
That it can follow the flight of song?

Long, long afterward, in an oak
I found the arrow, still unbroke;
And the song, from beginning to end
I found again in the heart of a friend.

CONSOLATION

When the young husband returned home from the office he found his wife in tears.

"Oh, John," she sobbed, "I had a lovely cake! I put it outside for the frosting to dry—and—the dog ate it!"

"Well, don't cry about it, sweetheart," replied her husband, patting her flushed cheek; "I know a man who will give us another dog!"

LOCAL NOTES

Sunday was the hottest day we have had in this district this year.

Mrs. Editor was seen in a small corner at Jasper with a bottle. Closer investigation proved that she was merely feeding a bear cub.

No! Mr. Editor does not use a bottle for the same purpose.

The members of the Westminster Ladies Auxiliary were the guests of Mrs. W. T. Watson, last Wednesday afternoon.

Messrs Parcels and Foxwell have erected a warehouse at the back of their store, for the accommodation of a carload of flour.

It is reported that 1200 men are engaged in the Cut Knife extension and that considerable progress is being made with the grading.

We regret to learn that the little son of Mr. & Mrs. Axel Gabrielson has been sick. We hope to hear of his recovery before long.

Roadwork has been started in several parts of the municipality.

Read our advertisements. Local merchants are offering their wares to you. Patronize them if possible.

The editor and his wife attended the joint convention of the British Columbia and Alberta Press Associations at Jasper Park Lodge last week. The editor was elected 2nd vice president of the Alberta Press Association for the ensuing year.

In connection with his duties for Press Association the editor has recently taken a trip to Montreal with short visits to Toronto and Winnipeg. Next week he hopes to give his readers a few impressions of his journeys, both east and west.

Rev. Wallace, of the Synod office of the Diocese of Saskatchewan will officiate at the morning service next Sunday (June 17th). The sacrament of Holy Communion will be administered. Holy Baptism can be arranged to be celebrated whilst the visiting clergyman is in town.

Rev. Wallace will be present at the U.F.A. service in the afternoon.

Radio messages are now being picked up from Edmonton, Calgary, and other places by Mr. L. D'Albertson, Jr. daily.

The Chauvin Basketball team suffered defeat at Provost on Monday. They are keen to recover their lost laurels.

By the way. Don't forget that the Chauvin Sports will be held Wednesday July 4th. You can't afford to miss that date.

The promoters of the Roros picnic have arranged a splendid program of athletic events which will conclude with a bowery dance at night, Wednesday, June 20th.

A very welcome shower of rain fell in this district Tuesday night.

Housekeepers are advised that fresh fish arrives in Chauvin from Prince Rupert on Mondays. A fish meal at least once a week is both pleasant and healthful.

J. A. Dumont is now in Portland, Oregon. We wish him the best of fortune, and give him three years to return to this district.

Fishers Chauvin Bread is delicious.

LOCAL BULL WINS
FIRST PRIZE AT
SASKATOON FAIR

Prince Fairfax, a 22 month old Hereford Bull, bred and raised by Mr. J. A. Palmer, of Artland, won the first prize at the Saskatoon Show and Sale by the Saskatchewan Cattle Breeders, June 6th. This splendid animal was sold at a very satisfactory figure after having won the Junior Championship.

CHAUVIN G. W. V. A.

The Chauvin Branch of the G. W. V. A. will hold a Grand Masquerade Ball in the I. O. O. F. Hall Chauvin on Friday June 15th. Good prizes will be awarded. Good Music is assured. The proceeds are to go toward the War Memorial Fund. This dance will doubtless be one of the treats of the sport season and we hope it will draw a good crowd from this and the surrounding districts.

Artland Sewing Club

All arrangements are now complete for the Sale of Work to be held in Artland school on Saturday afternoon June 23rd. There will be a nice variety of ladies aprons and childrens dresses, also a home cooking sale, home made candies, and ice cream from the Edmonton City Dairy. Come and bring a friend and en-

courage the ladies in their work. Don't forget the date June 23rd, Rain or Shine.

Alberta Is On Eve Of Great Oil Discoveries

Alberta is on the eve of the greatest oil development in its history, in the opinion of S. E. Slipper, recently resigned government petroleum engineer, Edmonton. Mr Slipper has collected authentic data from every section of the province and has personally visited most of the wells. While not expecting this movement to reach its height this year, Mr Slipper is confident that from two to three years will see discoveries of oil and gas in Alberta that will fulfil the hopes of the most sanguine. This was one of his reasons for resigning his government post, as he desired to be in a position to take an active part in the coming development which he foresees.

Improving Finances Of Western Farmers

Interest payments by western Canadian farmers for the crop year 1922-3 were 25 per cent larger than those of the previous year, proving that last year's crop was a paying one, and that the farmers have liquidated much of their indebtedness and are starting this season in a much stronger financial position, managers of Winnipeg loan companies state.

Summer Fairs

The Calgary summer exhibition, stampede and buffalo barbecue will be held July 9-14; Edmonton July 16-21; Saskatoon July 23-28; Regina July 30-August 4. The Canadian National railways will offer special excursion rates to these fairs.

Market Poultry Co-Operatively

The advantages and advisability of co-operation in the marketing of poultry are pointed out and strongly emphasized in a bulletin recently issued by the Dominion Live Stock Branch. Besides setting forth the fundamentals of successful co-operation, the bulletin also gives details of the management that should prevail in the office, in the warehouse, in marketing, in grading and standardizing, in pooling, in methods of financing, in the contract between members, and closes with a set of rules embodying a market agreement for local units. Copies may be had on application to the Publication Branch of the Department of Agriculture, Ottawa.

Community Grazing In Saskatchewan

The minister of agriculture for Saskatchewan, Hon. C. M. Hamilton has a bill before the legislature to establish grazing areas in various parts of the province on Dominion public lands. These areas will be leased to community grazing associations which will be incorporated under the Agricultural Co-operative Associations Act. An advisory committee of three persons to advise the minister upon matters in connection with the administration of the act is provided for.

Building Contracts Indicate Revival

For the first quarter of this year building construction contracts in Canada aggregated \$43,107,400, compared with \$32,575,900 for the corresponding period of 1922. The tendency shown in this revival is toward increased activity in business and industrial building, as the total of these two groups for the first quarter of 1923 amounts to \$25,545,000 as against only \$10,748,000 in 1922. All sections of the Dominion are sharing in this increased activity in construction.

Not Too Strong

The young mother asked the man who supped her with milk if he kept any calves, and smiled pleasantly when he said that he did.

"Then," she continued, brightly, "bring me a pint of calves milk every day. I think cow's milk is too strong for baby."

Recognition

A little girl in the Zoological Gardens tossed bits of bun to the stork, which gobbled them greedily, and bobbed his head for more.

"What kind of a bird is it, mamma?" the child asked.

The mother informed her it was a stork.

"O-o-oh!" cried the little girl, as her eyes rounded. "Of course, it recognized me!"

Secretarial Duties

The farmer decided to give special attention to the development of his poultry yard, and undertook the work, carefully and systematically. His servant, who had been with him a number of years, was instructed, among other things, to write on each egg the date it was laid and the breed of the hen. After a month the man resigned.

"I don't understand," declared the farmer "Why should you want to leave?"

"I've had enough," replied the man, "I've done the nastiest jobs an' never kicked. But I draw the line at being secretary to a bunch o' hens."

The young clergyman made his first parochial call. He tried to admire the baby, and asked how old it was.

"Just ten weeks," replied the proud mother.

Then the young clergyman inquired interestedly "And is it your youngest."

Life is not bearable with a woman till it is unbearable without her.

Stopped In Time

Johnnie, who had been praying for months for a baby brother, finally became discouraged.

"I don't believe God has any more little boys to send," he told his mother, "and I'm going to stop it."

Early one morning a few weeks later he was taken into his mother's room to see twin boys who had arrived in the night. Johnnie regarded them thoughtfully for some minutes.

"Golly," he remarked, finally, "It's a good thing I stopped praying when I did."

Each To His Own Job

A chicken-stealing case was before the court. The Negro culprit pleaded guilty and was duly sentenced. But the circumstances of the case had provoked the curiosity of the judge, so that he questioned the man as to how he had managed to take the chickens and carry them off from right under the window of the owner's house, and that with a savage dog loose in the yard. But the thief was not anxious to explain. He said:—

"Hit wouldn't be of no use, judge, to try to 'splain dis ting to you. Ef you was to try it you more'n likely would git yer hide full o' shot en' git no chickens nuther. Ef you want to engage in any rascality, judge, you better stick to de bench, what you am familiar."

Safety First

The mother-in-law of a village in France became ill, and presently fell into a trance, which deceived even her doctor. She was pronounced dead, and duly prepared for burial.

Following local custom, the body was wrapped in a sheet, to be borne to the burial place on the shoulders of four men chosen from the neighbourhood.

The procession followed a narrow path leading across the fields to the cemetery. At a turning a thorn tree stood so close that one of the thorns tore through the sheet and lacerated the woman's flesh. The blood flowed from the wound, and suddenly she awoke to consciousness.

Fourteen years elapsed before the good woman actually came to her death bed. On this occasion the ceremonial was repeated. And now, as the bearers of the body approached the turn of the path, the son-in-law called to them! "Look out for the thorn tree, friends!"

Secret Of Success

"The true secret of success," said the financier, "is to find out what people want."

"And the next thing," someone suggested, "is to give it to them."

The financier shook his head contemptuously. "No—to corner it."

"The average woman is so contrary that she has faith in her husband because nobody else does."

From 1914 to 1918, the Pasteur Institute in France produced 6,000,000 doses of serum for that country.

People care little how you get your money. They are interested in the way you spend it.
